## Art After School

Each child will create original artwork that is a reflection of his or her own personal interpretation.

## Art Attack!

Young Artists will look at how art has progressed throughout the centuries through fun and engaging lessons.

## Basketball

Students will learn to love the game of basketball through skill work and competitive game play weekly.

## Blooming Foodies

We are on a mission to help kids build self-confidence and a sense of community through COOKING, exploring their creativity, being of service to others, and by developing a foundation for healthy living.

## Chess- Advanced

The Village School's Chess Club on Thursdays welcomes the more advanced chess student.

## Chess- Beginner

The Village School's Chess Club welcomes beginners from all grade levels.

## Coding

Students will make creative games and animations using Scratch. Students will make a small portfolio of games and animations. No coding experience required.

## Advanced Dance

This program is for students who have mastered the basic fundamentals of dance. It is designed to extend and improve the student's technique and style. \*There will be an additional \$50 Recital costume fee added to this class.

## Beginner Dance

This program is designed to teach and develop the basic fundamentals of dance in a variety of dance techniques and styles. \*There will be an additional \$50 Recital costume fee added to this class.

## Knitting Club

A club designed to introduce students to the art of knitting, crochet, and other yarn crafts.

## Little Vet School

A STEM based child enrichment program using interactive demonstrations, crafts and games; Students learn how to take care of a pet and use instruments that real veterinarians use.

## Mad Science

Join us this semester as we learn science through hands-on experiments and interactive demonstrations.

## Public Speaking

Children learn to develop their vocabulary and correct use of grammar, organize their thoughts and ideas in order to tell coherent stories, use humor and body language to show poise and engage with an audience.

## Rugby

The focus will be on the free-flowing, non-contact version of the sport. No experience is required.

## Science Sizzles Club

The goal of this hands-on science program is to develop critical thinking skills while exploring fun-filled STEM activities guaranteed to ignite a lifelong love for science.

## Soccer

Our soccer program focuses on developing soccer skills each class, while working on coordination with and without the ball.

## Study & Play

This class offers a time after school for students to work on their homework projects, reading, and assignments under the supervision of a Village teacher, while also enjoying indoor/outdoor play.

## Swimming

The After School Swim Program is NOT A LEARN TO SWIM PROGRAM. Students who know how to swim one length of the pool (25-yards) with their face in the water and who can tread water for 2 minutes are eligible for this program.

## Tennis

Program includes all equipment, professional and age appropriate instruction, education elements including math and science and much more!

## Volleyball

Learn to learn to pass, set and spike on our very own court! Join us this spring to learn volleyball skills and enjoy playing this fabulous game in the sand!

## VRT Aladdin

Do you like to sing, dance, and act? Then join the cast of our vibrant Spring Show-Aladdin!

## Young Engineers

Our program provides theoretical knowledge and practical implementation in Science, Technology, Engineering, and Math (STEM) through the use of LEGO bricks..
