Art

Each child will create original artwork that is a reflection of his or her own personal interpretation.

Blooming Foodies

We are on a mission to help kids build self-confidence and a sense of community through COOKING, exploring their creativity, being of service to others, and by developing a foundation for healthy living. An additional \$15 materials fee is required.

Dance

This program is designed to teach and develop the basic fundamentals of dance in a variety of dance techniques and styles. An additional \$50 recital costume fee is required for this class.

Little Vet School

A STEM based child enrichment program using interactive demonstrations, crafts and games; Students learn how to take care of a pet and use instruments that real veterinarians use.

Music Club

Students will move, sing, make, and play instruments as they develop their musical skills in this active, fun, and creative class, taught by Ange Grout, our Finna and Elementary Music Teacher.

Mad Science

Join us this semester as we learn science through hands-on experiments and interactive demonstrations.

Rookie Rugby

The focus will be on the free-flowing, non-contact version of the sport. No experience is required.

Soccer Totstars

The Soccer Totstars soccer program will focus on each child, helping them reach their maximum potential, all the while developing a love and appreciation for the sport.

Big Builders

Our Big Builders program introduces preschool aged students to scientific concepts, through practical learning. The students use our specially designed LEGO kits, to build 3D models, which demonstrate different mechanical and environmental principles.

Clubhouse

Students will have lots of fun with friends in our after school club! Students will enjoy educational and recreational activities that will include, indoor and outdoor play, fun crafts, games, and stories.
